## **Significant Accounting Policies**

### **SCHEDULE – P**

#### **IT IS CORPORATE POLICY**

##### **1. Basis of preparation:**

The Financial statements are prepared under the historical cost convention, in accordance with Indian Generally Accepted Accounting Principles (GAAP) and mandatory accounting standards issued by the Institute of Chartered Accountants of India (ICAI), provisions of the Companies Act, 1956 and guidelines issued by the Securities and Exchange Board of India. All incomes and expenditures having a material bearing on the financial statement are recognized on the accrual basis. Accounting Policies have been consistently applied except where a newly issued accounting standard if initially adopted or a revision to an existing accounting standard requires a change in the accounting policies hitherto in use. Management evaluates all recently issued or revised accounting standards on an ongoing basis.

##### **2. Use of estimates:**

The preparation of statements in conformity with GAAP requires Management to make estimates and assumptions that affect reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of financial statements and reported amount of revenue and expenses during the reported period. Actual result could differ from estimates. Any changes in estimates are adjusted prospectively.

Management periodically assesses using external and internal sources whether there is any indication that an asset may be impaired. Impairment occurs where the carrying value exceeds the present value of future cash flows expected to arise from the continuing use of the asset and its eventual disposal. The impairment loss to be expensed is determined as the excess of the carrying amount over the higher of the asset's net sales price or present value as determined above. An impairment loss is reserved only to the extent that the assets carrying amount does not exceed the carrying amount that would have been determined net of depreciation or amortization, if no impairment loss had been recognized.

Contingencies are recorded when it is probable that a liability will be incurred, and the amount can be reasonably estimated.

##### **3. Revenue recognition:**

Revenue from software development services comprises income from time and material and fixed price contracts. Revenue from time and material basis recognized as the services are rendered. Revenue from fixed price contracts and sale of license and related customization and implementation is recognized in accordance with the percentage completion. Provision for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become certain based on the current estimates.

Revenue from annual technical service contracts is recognized on pro-rata basis over the period in which the services are rendered.

Service income accrued but not due represents revenue recognized on contracts to be billed in the subsequent period, in accordance with terms of the contract.

Profit on sales of investments is recorded on transfer of title of company from company and is determined as the difference between the sales price and carrying value of the investment. Interest on development of surplus funds is recognized using time proportion method, based on interest rates implicit in the transaction. Dividend income is recognized when the right to receive the same is established.

##### **4. Expenditure:**

The cost of software purchased for use in software development and services is charged to the cost of revenue in the year of acquisition. Post sales customer support costs are estimated by the management, determined on the basis of past experience. Expenses are accounted for on accrual basis and provisions are made for all losses and liabilities.

##### **5. Fixed Assets:**

Fixed assets are stated at the cost of acquisition including incidental costs related to acquisition and installation. Fixed assets under construction, advances paid towards acquisition of fixed asset and cost of assets not put to use before the period /years end, are disclosed as capital work in progress.

**6. Depreciation:**

Depreciation on fixed assets, except leasehold land, is on straight line method based on the useful lives of respective as estimated by the management. Depreciation a basis for assets purchased/ sold during the period / year. Assets costing less than Rs. 5000 are fully depreciated in the period / year of purchase.

The management's estimates of the useful lives of various fixed assets are as follows:

S. No.	Assets category	Useful life (in years)
1	Computers	4

**7. Investments:**

Investments are classified into long term and investments based on the intent of the management at the time of acquisition. Long term including investments in subsidiaries is stated at cost and provision is made to recognize any decline, other than temporary in the value of such investments. Current investments are stated at the lower of cost and the fair value.

**8. Earnings Per share:**

Basic earning per share is computed using the weighted average number of equity shares outstanding during the period /year. Diluted earnings per share is computed using the weighted average number of equity and dilutive equity equivalent shares outstanding during the period/ year-end, except where the result would be anti – dilutive.

**9. Taxation**

Income tax is computed using tax effect accounting period, where taxes are accrued in the same period the related revenue and expenditure arise. A provision is made for income tax based on the tax liability computed after considering tax allowances and exemptions. The differences that result between the profit offered for income taxes and the profit as per financial statements are identified and thereafter a deferred tax asset or deferred liabilities is recorded for timing differences, namely the differences that originate in one accounting period and reserve in another, based on the tax effect of the aggregate amount being considered. The tax effect is calculated on the accumulated timing differences at the end of the financial year based on the prevailing enacted or substantially enacted regulations. Where there are unabsorbed depreciation or carry forward losses, deferred tax assets are recognized only to the extent there is virtual certainty of realization of such assets. In other situation, deferred tax assets are recognized only to the extent there is reasonable certainly realization in future. Such assets are reviewed at the end of each financial year and written down or written up to reflect the amount that is reasonably / virtually certain to be realized. Deferred tax assets or liabilities arising due to the timing difference, originality during the tax holiday period and reversing after the tax holiday period are recognized in the period in which the timing difference originates.

**10. Managerial Remuneration:**

No managerial remuneration has been paid during the period / year to the directors. (Previous year nil)
